

Referral Template Medical Director

The Imaging Associates RTF referral template allows you to use Medical Director to easily create digital referrals for your patients. Download our RTF template and import into Medical Director using the instructions below.

How to import the RTF template into Medical Director

1. From within Letter Writer, select File > New. The New window appears.
2. Select 'Blank Template', then click the 'OK' button. A new blank document will open.
3. Select File > Import
4. Locate, select and open the IA RTF referral template.
5. Select File > Save as Template. The Save window appears.

6. Enter a name for the template and click the Save button.

The template is now ready for use.

You can now send a copy of the referral to Imaging Associates via email or fax.
